Success through martial arts

"Our Legacy as an organisation

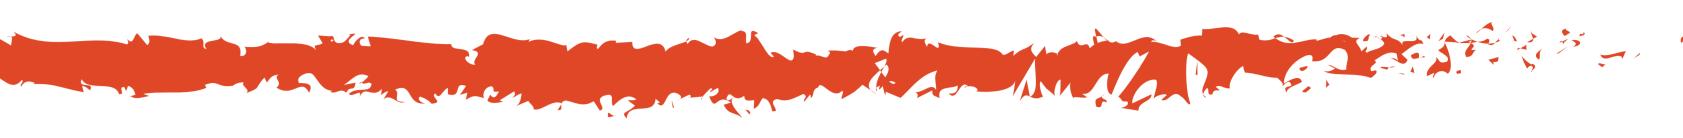

... will be the impact our students make as they go out into the world, from the lessons they have learned while in our programme" - Sebastian Bates

Our Global Impact

We believe that as organisation responsible for educating the next generation, we should inspire our students to believe that they can make a global impact through their own positive actions. That they should dream BIG and aim to build communities and lead others to solve the biggest problems in the world.

Here's How...

Over the course of their Black Belt Journey, each student will be making an independent impact around the world. To do this, we've built in global donations at different stages of each members

So we went out on a mission to make a global impact as an organisation to inspire our students. We created a plan that ensured that any student, parent, school or instructor that comes in contact with us makes a small dent in a big problem around the world.

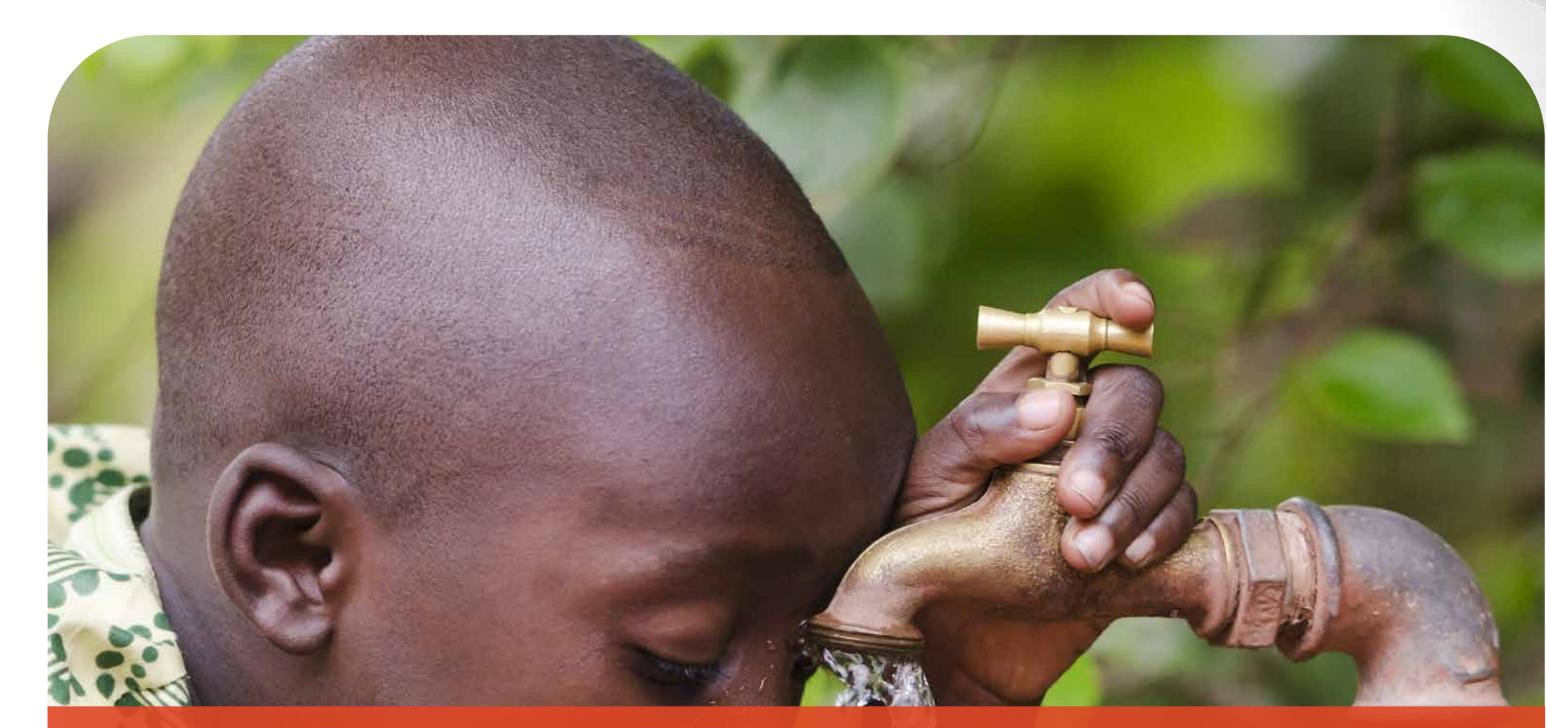

When a student joins us for their initial trial... ... We give 60 days of education to a child in India. journey. Here are some examples...

Our Local Scholarships.... ... It's our goal to have 2 students on a scholarship in every class., selecting those who would benefit the most from being in our community.

Registered charity number 1067125

We have partnered with Julia's House, a local children's hospice, where we provide siblings of children who are often terminally ill, a year long (free) scholarship with us at a very difficult time for their family.

When a student becomes a full member with us... ... We give 365 days of life saving, clean water to families in Ethiopia

When a student comes to one of our competitions... ... We give a bicycle to a child in Cambodia so they can

We have signed the British Military Covenant and proudly and publicly support the British Military and all those that serve our country. We support the forces by providing scholarships, discounts and welcoming new families into our Warrior community

"To select our charities we've decided to align ourselves with 2 of the UN Goals, Quality education and Good health and Well-being. To do this we have partnered with B1G1 an organisation that works exclusively with charities who have very low admin costs, ensuring every donation makes the biggest impact possible." -Sebastian Bates
